

Application No.: 10/733066

Case No.: 57958US002

Drawings:

The drawings were objected in the Office Action dated June 10, 2005 by Examiner Cruz, as stated below:

"1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: element 62 (Figure 4). Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. . . ."

In our Amendment and Response Under 37 CFR 1.111 dated September 9, 2005 we stated that the drawings were in compliance and that withdrawal of the objection was requested as stated below:

"The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5). The Office Action states element 62 in Figure 4 is not mentioned in the description. The disclosure is also objected to because there is no description of element 62. Applicants respectfully disagree. Reference numeral 62 is described as back surface of base substrate 22 (page 7, lines 7-8). Therefore, the drawings are in compliance with 37 CFR 1.84(p)(5) and the disclosure includes no informalities. Reconsideration, withdrawal of the objection, and notice to that effect are respectfully requested."

We received the Notice of Allowance dated November 22, 2005 which did not reply to our withdrawal of the objection to the drawings.
